The camera is useable in both, portrait and landscape format.

TECHNICAL DATA - FLASH-UNIT

TTL-Flash-Unit with power adapter and speedbounce

- because of the power adapter, you can get rid of batteries or accumulators
- softer illumination of the motifs
- reduce harsh shadows
- the round shape ensures natural reflections in the eyes of subjects

Studio flashes with soft-box offer additional advantages:

- Softer light because of the soft-box
- optimal illumination of the motifs
- better exemption at greenscreen- and bluescreen-shootings
- steady power connection (230V)

Walimex pro 150 Studio flashes with soft-box

- easy to use with 150 Ws flash output
- above-average light quality 5600 Kelvin
- lightweight and compact design
- exact, stepless power control from 1/1 to 1/32
- with practical bayonet connection

Hensel studio flash with soft-box

- Studio flash of a renowned brand
- stable metal-housing
- high-quality processing
- security-glass, which increases the durability
- 6 infinitely adjustable apertures
